Dear Mr. Veres:

In regards to our phone conversation, John Peshek agent for B-Vest properties had requested that I talk to you in regards to selling a portion of the property located at 154 Olive St, . Elyria, OH, he would like me to remove material off of the 95 foot portion of the property on the east side, which would be roughly a 25 foot section of debris to the Westside, so he could sell a portion of the property.

Could you please advise your opinion as to how you like to pursue this, and what the EPA's requirements would be and their stand on this endeavor?

Jack Vasi
